

Core Laboratory Skills Course

Learn basic laboratory techniques and fundamentals that all entry-level bioscience technicians would need in order to succeed.

Course Objectives

- Understand the concepts of calibration, verification, qualification, and validation.
- Collect and prepare samples for testing.
- Collect and analyze experimental data.
- Maintain a safe, clean contamination-free, and clutter-free environment.

Grant opportunities available for course materials only.

Before registering, students must successfully complete reading/language/math placement tests.

June 12 – June 25 2018
M-F 8am-5pm
(Lunch break from 12-1pm)

COST: \$185
